---

Ofrecemos servicios informáticos integrales tanto a empresas como a particulares. Nuestro objetivo es que la informática para Ud. sea una herramienta que le haga su trabajo más fácil y de la que no tenga que preocuparse para nada.

### Mantenimiento Informático Hardware Software Redes

A continuación, se detallan algunos de los servicios incluidos en nuestro mantenimiento informático:

- Consultoría Técnica, tanto por vía telefónica como por correo electrónico le ayudará a resolver cualquier duda o problema que se le presente en la utilización de su software o en el sistema en general.
- Revisiones periódicas de los sistemas, verificaciones del correcto funcionamiento de los equipos, de la red y de sus dispositivos y periféricos (routers, modems, impresoras, scanners, servidores de impresión, etc).
- Revisiones periódicas del Software Operativo, optimizando el funcionamiento del sistema operativo instalado en cada equipo (Windows 95/98/ME/NT/2000/XP/2003 server).
- Instalación de componentes Hardware y Software.
- Sistema de protección antivirus. Le ofrecemos la posibilidad de implementar un sistema antivirus de máxima confianza en todos sus sistemas, evitando la infección de toda la red por la acción de un virus y la consecuente pérdida de datos.
- Servicio de acceso remoto, que permitirá dar respuesta a cualquier problema del sistema muy rápidamente, ya que mediante software permite tomar el control directo de la máquina afectada sin necesidad de desplazamiento, pudiendo el cliente permitir o denegar el acceso a nuestros técnicos cuando lo desee, garantizado así su total privacidad.
- Copias de seguridad, gestionamos copias de seguridad de sus datos.

### Instalación de Redes y Comunicaciones

- Instalación y configuración del software de red, tanto el del sistema operativo servidor como el de los sistemas clientes. trabajamos fundamentalmente con sistemas Windows NT/2000/2003 Server ) como servidores y Windows 2000 Professional, Windows XP Professional, Windows 98 SE) como sistemas clientes.
- Conexión a Internet, instalamos dispositivos de acceso a Internet (ADSL, RDSI, RTB) y los configuramos para proveer de acceso a este servicio a toda la red.
- Instalación de Redes LAN, (Local Área Network), basadas en sistemas Windows. Conectamos, mediante cable de red, los ordenadores de su oficina o domicilio, para que puedan compartir recursos, como por ejemplo bases de datos, archivos, conexión a Internet, etc.
- Instalación de Redes Wireless (Wifi o WiMax), basadas en sistemas Windows y/o Linux. Están formadas por dispositivos de transmisión y recepción que se comunican a través de radiofrecuencia o infrarrojos, evitando así la utilización de cableado.
- Instalación de Redes privadas virtuales (VPN), que permiten conectar dos o más sedes u oficinas distantes entre sí a la misma red corporativa para compartir recursos, como por ejemplo bases de datos, archivos, conexiones a Internet, etc. adaptamos esta conexión al tipo de red implementada en sus instalaciones, ya sea LAN o WLAN.

### Instalación de telefonía IP - Asterisk

Actualmente, muchas empresas han eliminado el gasto de comunicación telefónica entre sus sucursales utilizando su propia infraestructura de Telefonía IP privada basada en Asterisk Open Source PBX.

## When Needs Are Very Important - Below-average Credit Personal Loan

Publicado por The Way To Select The Right Bank- Payday On the net Points - 12-05-2012 07:38:17

---

There are actually dangers presented from the mortgage lender on account of uncertainty of that's obtaining the loan. Following the threat is alcohol the lending company to offer the instantaneous cash needed. For a debtor, you must also review of your hazards. What's going to materialize understand what get immediate cash? When you figure out how to consider speedy circumstances, it is possible to unquestionably equilibrium the pros and cons in getting rapid loan. It's then mentioned that the quickly pace within the loan will not be akin to the requirement to get fast cash. paydayloans What this means is which the settlement only ought to be taken from the income in regards while. The trouble with non-payments on income improvements would be that the settlement settlement will not be followed, nevertheless the phrase in the loan is indeed short that restructuring the settlement agenda is not possible. Nonetheless, the assurance which the consumer would direct maybe USD200 of their next payroll check to your bank, is simply not privileged. The result is that losses on payday loans anywhere else need to be coated and therefore rates are substantial. Having said that, what's likewise true could be that the true desire amount is actually very low, with just USD15 each USD100 for a USD500 loan is possible.
